OUTCOME 1

1. Annual progress against indicators

Some participants of the meeting of the Regional Steering Committee for Africa requested to receive more detailed information about the yearly progress against the outcome and output indicators of the ABS Initiative. This information is being compiled on the following graphs and related tables and will be integrated in future progress reports.

All activities leading towards outcomes and outputs were carried out by the ABS Initiative or financed by the ABS Initiative and carried out by its implementing partners - If not otherwise indicated.

Please take note that the grey columns are simply place holders for the coming years. They do not express our aspirations regarding the respective outcomes and outputs. Indicators might be adjusted in the next workplan accordingly.
